

Homoeopathic Remedies & Potencies, LM Potencies & Dynamins

Contents

LM Potencies – Australia's Largest Range 2

A high frequency homoeopathic range introduced by Hahnemann in the latter years of his research. The LM remedies are aimed towards the mental and emotional aspects of the patient, reducing aggravation associated with ill-health. It is especially suited to children. This range is employed for use by accomplished homoeopaths within this field.

Dynamamin

Potentised Homoeopathic Complexes

Save time

Save money

Increase effectiveness

Benefits for you in using Dynamamin

Not one but two to three homoeopathic remedies acting together to give a **wider and more certain** coverage of relief.

At the same cost as each individual remedy!

- Easy to prescribe. Simply identify your patient's complaint from the list shown on the next page and order the Dynamamin Complex by name or number
- Easy to use; as a liquid or dispensed in pillules
- Combines well and complements other herbal medicines
- Great for the busy practitioner
- Easy directions to follow for your patients

For Practitioners Only. Not for sale in Health Food Shops.

Practical Homoeopathy for busy practitioners

The Dynamis range of products has been developed by a highly qualified and experienced Homoeopath after an extensive study of the classical homoeopathic literature to give the practitioner a range of medicines combining the simplicity and power of the traditional homoeopathic approach with ease of prescription. More and more practitioners are coming to appreciate the effectiveness of the homoeopathic approach to the treatment of disease conditions, but few have the necessary time available for the lengthy study needed to become classical homoeopaths.

These simple combinations will aid the practitioner in the treatment of a wide variety of complaints met within everyday practice and are suitable for those just starting their use of potentised medicines as well as those more experienced in homoeopathic prescribing. Each remedy is prepared with the care you have come to expect from the laboratories of the Pharmaceutical Plant Company - step by step serial dilution with firm hand succussion at every stage. You are assured of the highest possible quality product upon which you can rely on in practice.

Recommended Dosage

Unless otherwise stated, it is recommended that treatment be started with the 6C strength, proceeding to the 12C or 30C strength if required.

- 6C** 3 pills or 5 drops two or three times daily, according to severity of symptoms.
Reduce as cure progresses.
- 12C** 3 pills or 5 drops once or twice daily, according to severity of symptoms.
Reduce as cure progresses.
- 30C** 3 pills or 5 drops once daily or less often, according to severity of symptoms.
Reduce as cure progresses.
